Tre

Design Nina Jobs

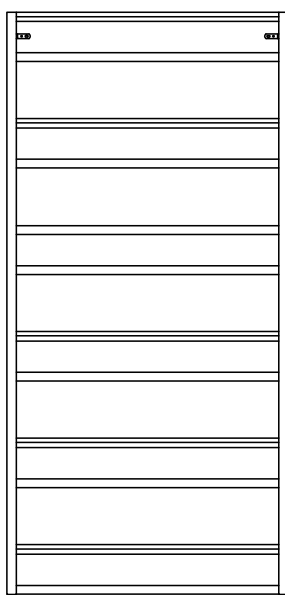

Inspired by the simplicity of Japanese sliding doors, Nina Jobs has created Tre, a stylish shelving unit in solid white pigmented ash with concealed joints and no visible screws. The combination of wood and metal accentuates the feeling of organized simplicity. The shelving unit can be used by itself or combined in various sizes to create unique combinations.

Variants

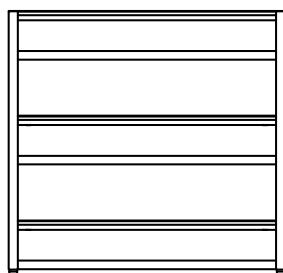

Measurements: width x depth x height in cm

High

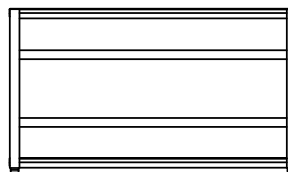

84001000
90x40x187
Incl. 5 shelves
