

Alias

paludis chair - 150

Chair with structure in chromed or stove enamelled steel, seat and back covered with paper straw.

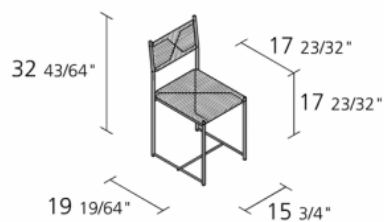

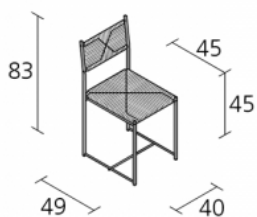

design
Giandomenico
Belotti

The design of the paludis chair represents a development of the spaghetti concept, and it combines minimal painted or chromed metal structure with the unusual material selected for the

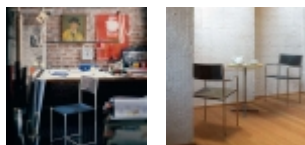

woven seat and back: a special "straw" made from recycled paper in a wide variety of colours. Its dual personality, that mixes tradition and design, makes it the ideal chair to accompany any table and interior.
