Cana.  
890 range

**Cana**

Design: wiege, Fritz Frenkler,  
Justus Kolberg

Model 890/6  
Settee/couch with fold-down  
armrests/side tables and variable  
area for sitting/lying. Leather cover.

The fold-down sections transform  
a three-seater into a two-seater  
in no time at all – and vice versa.

# Cana. Three in one.

Cana is more than just a settee – Cana is a quick-change artist: if the three sections of the backrest are folded down, a simple bench becomes an elegant two-seater that is ideal for private, informal talks.

The sitting area can also be pulled out to change Cana into a comfortable couch which makes “power naps” an integral part of a modern style of work.

The reverse of the backrest and the fold-down armrests/ side tables are veneered; the frame is coated in the colour silver. A solid wood frame, laminboard, rubberized coconut matting with wool fleece overlay and high-grade leather ensure that an elegant design is combined with sustainable quality.

For a visitor reception area, a confidential conversation or a power nap – Cana provides optimal comfort for any application.

Configured in rows, Cana benches provide versatile seating solutions and scope for visual zoning by means of folding down armrests. The combination of fabrics – the illustration shows felt-like upholstery material with elegant walnut veneer on the armrests and back sections – creates a homely, very informal atmosphere in a correspondingly furnished interior. For optimal relaxation.

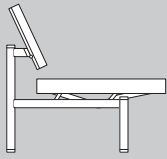

The Cana benches selected by a renowned manufacturer of sports cars are embossed with the company's brand-specific emblem – and even the upholstery seams and the sewing thread correspond exactly to the characteristic finish of the company's products. This ensures the consistent communication of brand values and corporate design in consultation scenarios too.

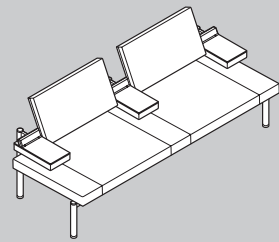

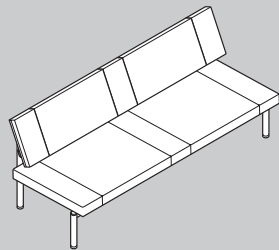

## High versatility.

Purist design, a wide choice of veneer and upholstery material ensure that Cana is a convincing solution for many different applications: for a consultation layout in a customer service hall or a consultation area in a high-quality showroom, as lounge furniture or as a multifunctional settee/couch in a living room. As the upholstery material and the wooden surfaces on Cana are finished according to fine craft techniques, tailor-made versions are possible besides standard models. Many internationally well-known branded companies now make use of the advantages in terms of image transfer that can be communicated by means of interior design: embossed emblems and logos or also seams with a customized finish allow both customers and staff to feel at home quite quickly.

Cana becomes a comfortable office couch by simply pulling the seat forward.

#### Technical details

##### Frame

Underframe in steel tube; backrest frame and hinges in aluminium, coated in the colour silver, satin finish. Adjustable glides in polyamide.

##### Seat

Pull-out solid beech frame with elasticated membrane, black. Rubberized coconut matting with wool fleece overlay.

##### Armrests and backrests

Maple, beech or walnut veneered laminboard; solid beech lipping, natural finish. Upholstery comprising rubberized coconut matting with wool fleece overlay. Black leather cover. Fold-down armrests/side tables.

Additional finishing options for surfaces and upholstery material on request.

Subject to technical change without notice.
