Sunrise Tower, Zürich, Switzerland. Architect: HGI International. Interior designer: Corporat. Property advisors & Architects. Photo: Paul Kozlowski

Design

Kurt Nørregaard, Poul Henningsen

Concept

Design by Kurt Nørregaard based on sketches by Poul Henningsen. LP Centrum provides high-ceiling spaces with glare-free and indirect lighting. An integral aspect of the design, the 10 shades are designed according to the mathematic curve lituus. The philosophy behind the luminaire is to provide light for spaces, horizontally and vertically alike.

Finish

White, wet painted.

Material

Shades: Spun aluminium. Frame: Extruded anodised aluminium. Suspension: Spun aluminium.

Mounting

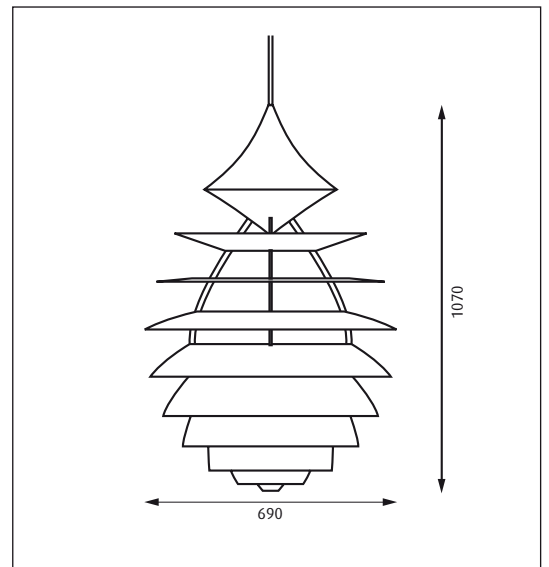

Suspension type: Cable 3x0.75mm² & wire. Canopy: Yes. Cable length: 4m. Ballast positioning: In fixture head.

Weight

Max. 14.5kg.

Class

Ingress protection IP20. Electric shock protection I w. ground. ⚠
