PIANI

Melaminico: realizzati in agglomerato ligneo sp28 mm nobilitato melaminico in finitura antracite e beige con effetto "tessuto", e bianco.

Laccato: realizzati in agglomerato ligneo sp28 mm laccati lucidi a poliestere spazzolato.

Legno: realizzati in agglomerato ligneo sp28 mm impiallacciati in essenza ebano e verniciati.

Cuoio: realizzati in agglomerato ligneo sp28 mm rivestiti in cuoio in finitura testa di moro impunturato con cuciture nella stessa finitura.

Tutti i piani, nelle varie finiture sono dotati di bussole per il fissaggio ai piani e per le aggregazioni.

Dimensioni scrivanie: 160, 180, 200 cm

STRUTTURA METALLICA

Verniciato: struttura realizzata in piatto di metallo con profilo 60 x10 mm e dotata di una coppia travi di collegamento. Finitura struttura verniciata a polveri epossidiche: bianca o antracite.

Cromato: struttura realizzata in piatto di metallo con profilo 60 x10 mm e dotata di una coppia travi di collegamento. Finitura struttura: cromo satinato.

Dotati di piedini livellatori e di cilindri di copertura cromati lucidi.

Nelle gambe condivise è previsto di serie un carter passacavi retro ispezionabile in lamiera piegata nella stessa finitura delle strutture.

MODESTY PANEL

Melaminico: realizzati in agglomerato ligneo sp.20 mm nobilitato melaminico nella stessa finitura dei piani.

Laccato: realizzati in agglomerato ligneo sp.20 mm laccati lucidi a poliestere spazzolato, nella stessa finitura dei piani.

Legno: realizzati in agglomerato ligneo sp.20 mm impiallacciati in essenza ebano, nella stessa finitura dei piani.

Tutti i modesty panel, nelle varie finiture, sono dotati di staffe di supporto per il fissaggio ai piani e di borchie cromate per la reversibilità dello schienale.

CASSETTIERA E MOBILE SERVIZIO

Struttura realizzata in agglomerato ligneo sp20 mm nobilitato melaminico in finitura antracite e completi di top e frontali, nella stessa finitura dei piani direzionali ed operativi.

Dotati di ruote piroettanti.

Corpo cassetto in metallo, scorrevoli su guide a parziale estrazione. Nel primo cassetto è prevista una serratura per il bloccaggio multiplo dei cassettei.

ARMADIATURE

La struttura interna, con finitura antracite, è prodotta in agglomerato ligneo nobilitato melaminico sp. 20 mm ed è dotata di ripiani in legno sp. 25 mm.

Le ante vetro comuni, sono dotate di un telaio perimetrale in alluminio anodizzato con vetro temperato "stop sol" sp. 4 mm.

Melaminico: le ante legno, i top, gli zoccoli e i contenitori laterali sono realizzati in agglomerato ligneo nobilitato melaminico sp. 20 mm nella stessa finitura dei piani.

Laccato: le ante legno, i top, gli zoccoli e i contenitori laterali sono realizzati in agglomerato ligneo sp20 mm laccati lucidi a poliestere spazzolato, nella stessa finitura dei piani.

Legno: le ante legno, i top, gli zoccoli e i contenitori laterali sono realizzati in agglomerato ligneo sp. 20 mm impiallacciati in essenza ebano, nella stessa finitura dei piani.

Dimensioni armadi: H.90, 160, 206

ACCESSORI

Pareti, mensole sagomate destre e sinistre e box contenitore, realizzati in metacrilato spessore 8 mm in finitura nero fumè bisatinato.

Sistema di ispezione alla canalizzazione soprapiani per le composizioni condivise prodotta in estruso di alluminio anodizzato e dotato di guaina flessibile a memoria di forma per il passaggio cavi.

Le maniglie sono in metallo pressofuso in finitura cromata.

Lampada orientabile a 360° con stelo cromato in finitura bianca. Aggregabile alle scrivanie lineari mediante morsetto cromato oppure nelle composizioni condivise tramite apposita piastra sottopiano.

ELETTRICIFAZIONE

In senso orizzontale viene eseguita mediante passacavi in lamiera verniciata a polveri epossidiche in finitura antracite da collegare direttamente al piano scrivania.

(Personal Office Desking)

WORKTOPS

Melamine tops: manufactured from 28 mm furniture grade chipboard. Textured fabric effect melamine coating in either anthracite or beige finishes or a smooth plain white finish.

Lacquered tops: manufactured from 28 mm thick furniture grade chipboard, in a high gloss lacquered finish, polyester brushed.

Wood tops: manufactured from 28 mm thick furniture grade chipboard, in ebony wood veneered and varnished.

Leather-hide: manufactured from 28 mm thick furniture grade chipboard, upholstered in brawn leather-hide finish, with stitching in the same finish.

All tops are provided with bushes pre-fitted for easy assembly and for the combinations.

Desk size: 160, 180, 200 cm

METAL STRUCTURE

Varnished structure: it is made using a flat metal profile 60x10 mm and it is completed with a set of connecting metal bars. Structure finish is epoxy powder coated: white or anthracite.

Chromed structure: it is made using a flat metal profile 60x10 mm and it is completed by a set of connecting metal bars. Structure finish with epoxy powder: satin-finished chrome.

The structure is equipped with adjustable feet and polished chromed cover cylinders.

In the shared structure a standard carter for cable management is available, with access to allow for cables to pass through from inside. The carter is made in the same metal sheet and finished to match the structure.

MODESTY PANEL

Melamine: manufactured from 20 mm thick furniture grade chipboard, melamine coated in the same finish as the tops.

Lacquered: manufactured from 20 mm thick furniture grade chipboard, in a high gloss lacquered finish, polyester brushed.

Wood: manufactured from 20 mm thick furniture grade chipboard, in ebony wood veneered and varnished.

All modesty panels have support brackets for fixing direct to the tops and chromed studs to enable the panel to be reversed so it can be fitted with the shaped profile left or right hand.

CHEST OF DRAWERS AND MOBILE CREDENZA

The structure is manufactured from 20mm furniture grade chipboard, melamine coated in anthracite finish. The tops and the front panels are in the same finish as the executive and operative desktops.

They are fitted with spinning casters.

The pedestal has a metal frame on a bearing-sliding guide and can be partially pulled out. A lock for multiple-drawer locking system is fitted in the top drawer.

STORAGE UNITS

The inner structure is finished in anthracite and is manufactured from 20 mm thick furniture grade chipboard, melamine coated and it is equipped with 25 mm thick shelves.

The common glass doors are provided with a profile in anodised aluminium with 4 mm thick tempered glass “stop sol”.

Melamine: the wooden doors, the plinths and the side containers are made in 20 mm thick furniture grade chipboard, melamine coated with the same finish as the desktops.

Lacquered: the wooden doors, the plinths and the side containers are made in 20 mm thick furniture grade chipboard, in a high gloss lacquered finish, polyester brushed with the same finish as the desktops.

Wood: the wooden doors, the plinths and the side containers are manufactured from 20 mm thick furniture grade chipboard, in ebony wood veneered and varnished, in the same finish as the desktops.

Storage units' size: H.90, 160, 206.

ACCESSORIES

Partitions, contoured shelves – left and right-handed – and container boxes are manufactured in 8 mm thick methacrylate in charcoal finish, satin on both sides.

Cable management inspection system for the desktops in the shared workplaces: it is made with extruded anodised aluminium endowed with a flexible sheath for the cables management.

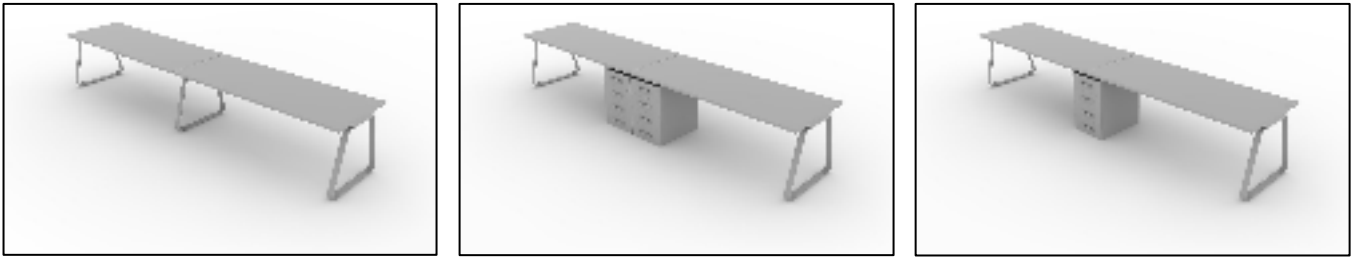

The handles are in die-cast aluminium, chromed finish.

360° adjustable lamp with chromed stem, white finish: this can be attached direct to desks by means of chromed clamp or by means of a plate fitted under the desk for the shared workplaces.

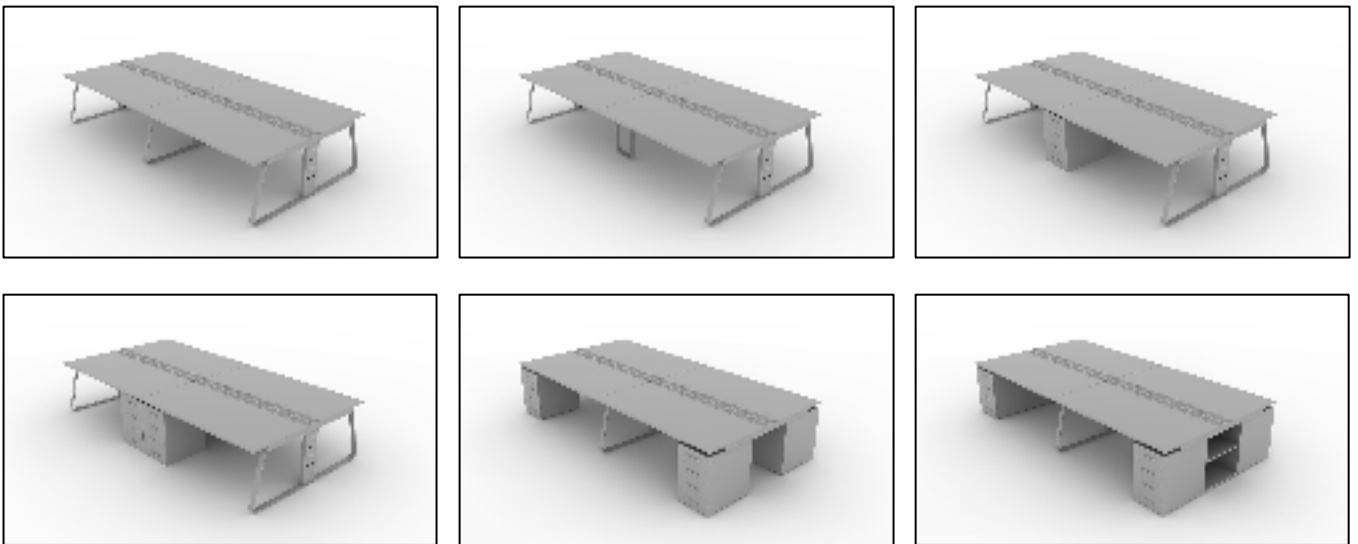

CABLE MANAGEMENT

The horizontal canalisation is achieved by a metal plate varnished in epoxy powder in anthracite finish, to be connected directly onto the desktop.
