

Presso

Design

Patrick Norguet

Characteristics

The sturdy cone of the Presso provides perfect support for the fragile-looking table-top. The high table can be used as a dining- and conference table, the low version as a coffee table.

Top high table

Material: 25 mm m.d.f.
 Topcoat: laminate/veneer standard in 3 triangular pieces / lacquer
 Finishing edge: belly milled.
 In case of veneer, edge stained as topcoat.

Top low table

Material: 18 mm m.d.f.
 Topcoat: laminate/veneer standard in 3 triangular pieces / lacquer
 Finishing edge: belly milled.
 In case of veneer, edge stained as topcoat.

Base

Column, lacquered white or black
 Column, upholstered with leather
