# rezon

Rezon is good at creating a sense of privacy in open spaces, screening off the open landscape and providing an efficient area for storage. The screen system has a sophisticated, modular design based on an aluminium frame and panels in various colours with different paddings. You can also choose to add a functional panel to the desktop screen, allowing you to mount several useful accessories and clear the desk surface.

## Desktop screens (\*Not sound-absorbent)

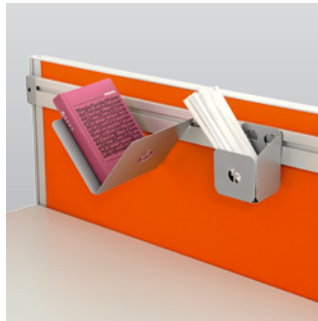

## Desktop screens (suitable for Serie[f] bench)

**Desk mounted screen**  
Add functionality and style to your workstation with Rezon desktop screens.

**Functional accessories**  
With a function panel, you can fit accessories to your Rezon.

**Function runner**  
A practical runner that is easy to mount at any desired height on the base module.

**Hidden bracket**  
The new hidden desk bracket makes a discreet impression.

**Acoustic panel**  
The acoustic panels are covered in fabric and match the rest of the range.

## rezon – desktop screens

**Carcass** Frame in extruded aluminium, "natural aluminium", with adjustable foot (24 mm). **Panel** Fabric (Delta, Nova, New Blazer), Lamine™ (beech, birch, oak, white), transparent acrylic (orange, smoked). **Connector** 2-way straight, 2-way L, 3-way T, 4-way cross and flexible connector for selected angle. Grey connector, black connector cramp. **Options** Paperclip, supporting arch, hook, clips, nameplate, function bar with track for accessories. **Scale** 1:100. **Unit** mm. **Design** Christian Halleröd

### Freestanding screens

Rezon freestanding screens let you separate a room easily and in style.

### Freestanding screens

	800	900	1 000	1 200
1 105				
1 445				
1 790				

### Function runner

Goes equally well with both desktop and freestanding screens.

### Extend and rebuild

The aluminium profiles are durable and easy to handle. Create a new office in no time.

### Castors

Rezon freestanding screens are also available with castors as option.

### Various panels and extra supports

are available in different materials and colours – upholstered, Lamine™ in birch or beech colour, frosted orange or smoked acrylic. Floor standing screens become more stable with support feet which blend nicely into the design.

### Acoustic panels

All Rezon freestanding screens are available in a sound-absorbent material. Apart from sound absorption, the new acoustic panel lends the office a new style.
